Familiar : C, Python, LangChain, MCP Server, RAG

PROJECTS

InvoiceGenie   View Here

- Invoice Genie is a modern web app built with React 18 and TypeScript, using Tailwind CSS and Shadcn/ui for a sleek, responsive UI. It simplifies invoice creation, offers PDF export with jsPDF and html2canvas, supports automated calculations, and improves efficiency for businesses and freelancers.

Custom-AI-Agent   View here

- Custom-AI-Agent is a lightweight JavaScript AI agent built with the fast Bun runtime, designed for easy customization and extension. It integrates LangChain components such as MemorySaver for persistent long-term memory, sMessagesAnnotation and StateGraph for managing conversation flow states, ChatGroq for semantic querying, ToolNode for embedding external tools, and TavilySearch for real-time web search—together enabling powerful, context-aware AI agents with efficient performance and flexible workflows.

Project Management System   View here

- Project Management Backend is a RESTful API built with Node.js and Express.js that enables efficient project collaboration. It features secure user authentication with role-based access, comprehensive management of projects, tasks, subtasks, and notes, secure file uploads, and system health monitoring, using MongoDB for data storage.

EXPERIENCE

IBM SkillsBuild AI & Cloud Internship   View Here

- The IBM SkillsBuild AI and Cloud Internship is an 8-week, fully online program designed for students and freshers to gain hands-on experience in Artificial Intelligence, Machine Learning, and Cloud Computing. Offered in partnership with AICTE and Edunet Foundation, it features self-paced learning, mentor support, real-world projects, and industry-recognized certification
